Clearly illustrated with hundreds of line drawings, this book focuses on areas such as health, family, school, sports, travel, religion, time, money, food and drink, and small talk. This edition's new chapter on technology boasts 50 phrases to help you communicate about the Internet, computing, video relay, and more. There is even a chapter that gives you phrases for communicating about signing: asking people to sign slower, indicating your fingerspelling ability, and requesting help with your fledgling skills.
